

DUTIES OF SIUS IN RELATION TO WORLD SHOOTING PARA SPORT EVENTS

1. Range / Material

1.1 To provide, set up, and dismantle the electronic targets and to run all the necessary equipment during World Shooting Para Sport Competitions up to the following maximum number of lanes:

10m:	40 targets
25m:	30 targets
50m:	40 targets
Finals Hall:	10 targets

1.2 If the number of lanes exceeds the maximum number as outlined, the Duty Sheet and SIUS service levels (dependant on availability of equipment and technicians) shall be re-negotiated via consultation between SIUS, World Shooting Para Sport and the LOC;

1.3 To organize transportation and insurance for material and equipment being provided;

1.4 To manage installation, testing, and dismantling of loaned equipment.

1.5 To be liable for wear material, rubber, paper rolls and plastic target cards for all provided targets.

1.6 To provide, install, and dismantle computers, printers, cables for the complete outfit of all 10m, 25m and 50m ranges.

1.7 To provide one VGA-Projector per range, to show intermediate rankings.

2. Software

2.1 To provide start lists, based on the entries (downloaded from accreditation web site and as per latest changes reported by the organizers accreditation), but supported by the technical delegate or competition manager.

2.2 To provide up to date SIUS/ISSF software, including all rule changes for all ISSF events.

2.3 To display results on the web-site "results.SIUS.com" for each event as a backup and to provide .pdf documents in printed and electronic form for the organizer and to send the official xml format to the management team for World Shooting Para Sport for each event.

3. Manpower

3.1 To provide for range inspection by one technician.

3.2 To provide an adequate number of competition technicians both during training and competitions.

3.3 To supervise the maintenance of equipment owned by the organizer and to ensure its full functionality during the World Shooting Para Sport Championship.
